

No	Face material	Rubber material	Metal material	Type of mechanical seal			
				SHORT TYPE		NORMAL TYPE	
				Low press	High press	Low press	High press
				EA220series	EA260series	EA230series	EA270series
1	Alumina ceramic × Mould carbon	NBR	SUS316	EA221	EA261	EA231	EA271
2	Alumina ceramic × Sintered carbon			EA222	EA262	EA232	EA272
3	SiC × Sintered carbon			EA223	EA263	EA233	EA273
4	SiC×SiC			EA224	EA264	EA234	EA274
5	Alumina ceramic × Mould carbon	FKM		EA225	EA265	EA235	EA275
6	Alumina ceramic × Sintered carbon			EA226	EA266	EA236	EA276
7	SiC × Sintered carbon			EA227	EA267	EA237	EA277
8	SiC × SiC			EA228	EA268	EA238	EA278

Please specify seal type and shaft diameter when placing an order. example : EA265-050

Please contact us if specific material(EPDM rubber,etc.) is to be used

## Machine Preparation

Shaft surface finish	max.1.6 μmRa
Stuffing box surface finish	max.3.2 μmRa
Shaft runout	max.0.1 mm TIR
Housing squareness	max.0.1 mm TIR
Housing eccentricity	max.0.1 mm TIR
Axial movement	max.±0.1 mm

Notes : 1.Figures in the table are recommended.  
2.Please contact us if you have specific figures.
